PROFESSIONAL SUMMARY

Risk & Analytics professional with 4+ years of experience across Big 4 and data centre operations. Track record of identifying revenue leakages cost savings and financial misstatements via data-driven analysis & audits. Skilled in risk analytics, internal audit, RCSA, regulatory compliance (APRA CPS230, Basel III, IFRS) and assessment of internal controls.

PROFESSIONAL EXPERIENCE

Rostelecom Data Centres (formerly SafeData)

Moscow, Russia

Large-Scale Data Centre Operator | ~A\$1.5B+ Revenue

Lead Risk & Business Analyst

Sep 2023 – Present

- Identified **annual revenue leakage** through data analysis; uncovered excessive collocation discounts (up to **30%** above policy) and unauthorized long-term rack reservations, driving immediate contract renegotiations and revised pricing policy.
- Reduced point electricity overpayments by **4.5%**, built an Excel analytical model comparing contracted power against actual consumption across 4,000 racks and supported renegotiation of 42 supplier agreements.
- Reviewed the procurement approval cycle and identified duplicate workflows across EDO and ERP systems; recommended 50% cycle time reduction (23 → 12 days) through process streamlining and a dashboard for overdue approvals.
- Designed and implemented a comprehensive internal controls framework, including **KPIs** and an annual **Risk & Control Self-Assessment** (RCSA) process, strengthening governance in line with **COSO** and **ISO 31000**.
- Automated capacity, sales, and operational performance (SLA, PUE) monitoring via interactive Power BI dashboards, integrating OLAP, Help Desk, and energy system data — reducing analysis time by 50%. [Explore example here.](#)
- Led **CAP** monitoring migration to **JIRA** and implemented a compliance risk hotline; delivered **workshops** to strengthen enterprise risk culture.
- Led end-to-end **risk-based audits** across core operational functions (Procurement, Sales, Capacity Planning), presenting findings and **remediation roadmaps** directly to executive management.

Former EY Russia (Big 4)

Moscow, Russia

Financial Services Practice – Banking Sector

Audit Associate (Staff → Advanced Staff)

Oct 2022 – Aug 2023

- Identified **material** financial reporting issues through substantive audit procedures, contributing to accurate financial reporting.
- Executed external audits for a major banking client (**A\$70B+** assets equivalent) as part of a Big 4 engagement team.
- Performed audit procedures over financial instruments, expected credit losses (IFRS 9), and regulatory capital (Basel III), ensuring compliance with **IFRS 7, 9, 13, 16** and **IAS 36, 37, 38**.
- Performed IFRS 9 **credit portfolio** testing, assessing expected credit losses (ECL) and validating key credit risk parameters (PD, LGD, EAD).
- Automated audit workflows using **Excel (Power Query, VBA)**, reducing manual testing and significantly improving audit efficiency.

Nornickel

Moscow, Russia

Global Leader in Nickel & Palladium Mining | Diversified Metals & Mining Giant

Tax Specialist – Tax Monitoring & Data Analytics (Contract)

Oct 2021 – May 2022

- Reconciled **SAP** tax data for regulatory reporting; delivered analytical reports and ad-hoc insights to finance stakeholders, supporting data-driven decision-making.
